Introducing Archon - an AI Agent that BUILDS AI Agents

Archon is the world's first "Agenteer" - an AI agent that literally creates other AI agents from scratch! All with pure code so y

Archon is in it's infancy, but I've got huge plans for it and I want to bring you along for the ride since it's fully open source! I

1. I want to use it as a tool to teach you how to build super powerful AI agents with Pydantic AI and LangGraph (other fram

2. I'm "building Archon in public" so you can see my process of building an advanced AI agent from inception all the way to

3. It allows for people like you to contribute since I really want Archon to be a community driven project! It's a BIG undertak

In this video, I show you what Archon is, why it's so powerful, and all the big plans I have to create it into a monster of an A

~~~~~~

Check out Archon on GitHub, try it yourself, and give the repo a star!
